SECRET

EVENING REPORT - LATIN AMERICA

[Omitted here is material unrelated to Chile.]

Decision by "Condor" Countries to Suspend Counterterrorism Operations in Europe - The South American countries which had agreed to launch a counterterrorism operation in Europe (Argentina, Uruguay, and Chile) have agreed to suspend initiation of the plan until Brazil decides whether or not to participate. Brazil has agreed to participate in the intelligence coordination aspects of Condor in South America but has not agreed to participate in joint actions in Europe. The other Condor countries apparently have not ruled out moving forward on the Paris operation without the Brazilians.
